

IPC-1757

2026 – June

Process Chemicals Declaration Standard

*An international standard developed by
Global Electronics Association*

by Global Electronics Association

GEA Mission

The Global Electronics Association promotes industry growth and strengthens supply chain resilience.

**About IPC
Standards by
Global Electronics
Association**

IPC standards and publications by Global Electronics Association are designed to serve the public interest through eliminating misunderstandings between manufacturers and purchasers, facilitating interchangeability and improvement of products, and assisting the purchaser in selecting and obtaining with minimum delay the proper product for their particular need. Existence of such standards and publications shall not in any respect preclude any entity from manufacturing or selling products not conforming to such standards and publications, nor shall the existence of such standards and publications preclude their voluntary use.

IPC standards and publications by Global Electronics Association are approved by committees without regard to whether the standards or publications may involve patents on articles, materials or processes. By such action, Global Electronics Association does not assume any liability to any patent owner, nor does Global Electronics Association assume any obligation whatsoever to parties adopting a standard or publication. Users are wholly responsible for protecting themselves against all claims of liabilities for patent infringement.

**Global Electronics
Association
Position Statement
on Specification
Revision Change**

The use and implementation of IPC standards and publications by Global Electronics Association are voluntary and part of a relationship entered into by customer and supplier. When a standard or publication is revised or amended, the use of the latest revision or amendment as part of an existing relationship is not automatic unless required by the contract. Global Electronics Association recommends the use of the latest revision or amendment.

**Standards
Improvement
Recommendations**

Global Electronics Association welcomes comments for improvements to any standard in its library. All comments will be provided to the appropriate committee.

If a change to technical content is requested, data to support the request is recommended. Technical comments to include new technologies or make changes to published requirements should be accompanied by technical data to support the request. This information will be used by the committee to resolve the comment.

To submit your comments, visit the Status of Standardization page at www.electronics.org/status.

IPC-1757

Process Chemicals Declaration Standard

If a conflict occurs between the English language and translated versions of this document, the English version will take precedence.

Developed by the Process Chemicals Task Group (2-18k) of the Electronic Product Data Description Committee (2-10) of IPC

Global Electronics Association Standards and Artificial Intelligence (AI) Statement

Global Electronics Association is the trading name of IPC International, Inc., which owns the copyright to all IPC Standards and other IPC materials.

The Global Electronics Association explicitly prohibits:

- The integration or transfer of any data whether in the form of IPC books, standards, metadata, or other formats — into AI engines or algorithms by any person or entity, including authorized distributors and their end users.
- Activities involving data harvesting, text and data mining, enrichment, or the creation of derivative works based on this data, including the use of automated data collection methods or artificial intelligence.

Any breach of these provisions is considered a copyright infringement unless expressly authorized in advance in writing by the Global Electronics Association.

Users of this publication are encouraged to participate in the development of future revisions.

Acknowledgment

Any document involving a complex technology draws material from a vast number of sources across many continents. While the principal members of the Process Chemicals Task Group (2-18k) of the Electronic Product Data Description Committee (2-10) are shown below, it is not possible to include all of those who assisted in the evolution of this standard. To each of them, the members of the IPC extend their gratitude.

Electronic Product Data Description Committee

Chair

Thomas Marktscheffel

Process Chemicals Task Group

Co-Chairs

Tyler Windsor

Wolfspeed

Valerie Kuntz

A-Team

A-Teams are dedicated groups of volunteers who undertake a significant amount of work in standards development on behalf of their working group.

IPC recognizes this A-Team for their exceptional leadership and effort in the development of this standard.
